

# How can we represent the Demographic Transition Model as population pyramids?

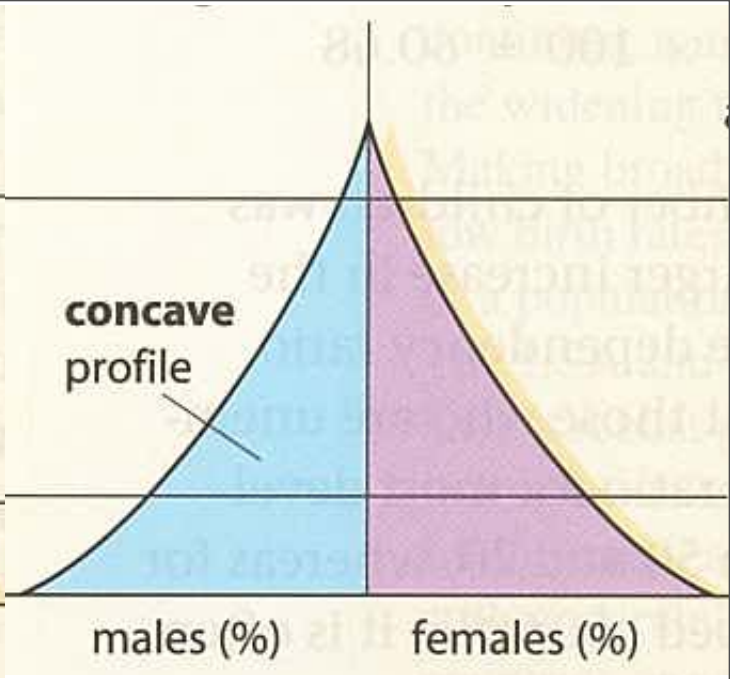

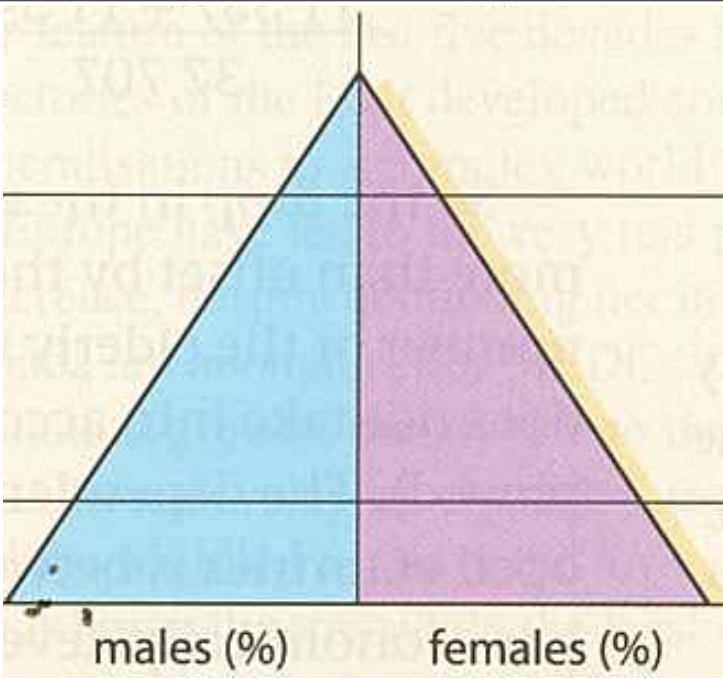

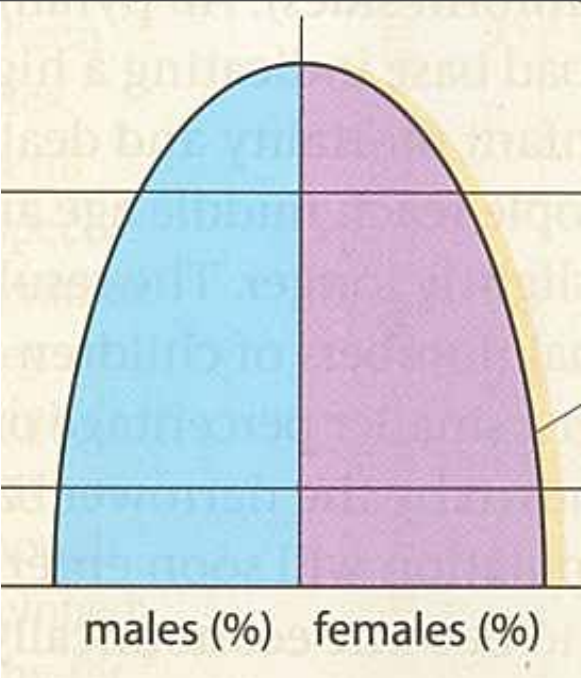

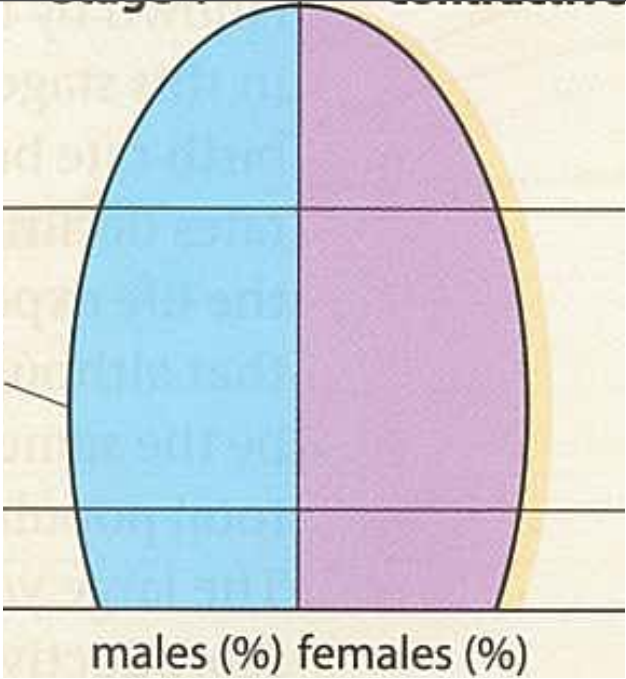

On the next page you will see four population pyramids. Each one represents a stage of the demographic transition model.

They are in the wrong order - rearrange them into the correct order

In the space underneath write a description of the pyramid shape and try to write an explanation

Base	Top	Wide
Narrow	High/low birth rate	High/low death rate
Longer/shorterLife expectancy	Fall in...	Concave/convex

Try and use the words in the box to help you

Stage 1	Stage 2	Stage 3	Stage 4
